

## **Architecture, Typology and Visualisation**

### **Assignment 09.11.23**

Prepare in portrait A1 format a first layout as a presentation draft for the semester's assignment.

Set up the layout with dimensions and placeholders for the material you would like to present (you can insert interim material and/or images and drawings already available on books or online).

Collect references for layout, graphic style, types of images following the examples seen in the course.

Save the material in PDF format in two different documents: layout A1 (at least one page) and references' booklet - size A4 or A3.
